

## USING CANVA IMAGE

Canva is a convenient, image design tool for advertising programs or social media posts. Canva helps create professional designs, and is easy to use.

If you already use Canva just click the link below to the 2019 LBIC Beef Poster Contest design to be used for marketing purposes. You can edit the image with the correct dates, times, locations, and contact information for your local parish contest.

If you are NEW to Canva simply click the link and create an account (or sign in with Facebook or Google). I have also provided the link to a quick overview of Canva and how it works.
